# What is YouTube?

“YouTube is a video-sharing website headquartered in San Bruno, California, United States. The service was created by three former PayPal employees in February 2005. In November 2006, it was bought by Google for US\$1.65 billion. [...] The site allows users to upload, view, rate, share and comment on videos. [...] Available content includes video clips, TV clips, music videos, movie trailers and other content such as video blogging, short original videos, and educational videos.”--[Wikipedia](#)
